

KASI NAVEEN K

Computer Science & Engineering Student | Full-Stack & App Developer

Government College of Engineering, Sengipatti, Thanjavur | Tamil Nadu, India
6381246015 | kkasinaveen@gmail.com

PROFESSIONAL SUMMARY

Motivated and technically skilled 3rd-year Computer Science and Engineering student with a strong academic record of **8.9 CGPA** up to the end of the 4th semester. Experienced in full-stack web development and application development, with hands-on experience building complete software solutions from frontend interfaces to backend services and databases. Proficient in **Java, Python, and C**, with Java as the primary programming language. Participated in two hackathon events and secured **2nd Prize at a hackathon conducted by BIT, Erode**. Passionate about developing practical, scalable, and user-focused applications.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering	Currently pursuing — 3rd Year
Government College of Engineering, Sengipatti, Thanjavur	CGPA: 8.9 / 10.0 Up to 4th Semester

TECHNICAL SKILLS

Programming Languages	Java — Primary Python C
Full-Stack Development	Frontend Development Backend Development REST API Development Database Integration Full-Stack Application Architecture
Application Development	Application UI Development Backend Integration API Integration Database Connectivity
Core Computer Science	Object-Oriented Programming Data Structures & Algorithms DBMS Operating Systems Computer Networks
Development Skills	Problem Solving Debugging Version Control Software Design Team Collaboration

PROJECTS

Student Management System
Developed a complete Student Management System designed to efficiently manage student-related information and administrative operations.
Key Features: Student registration and profile management • Create, update, view, and delete student records • Frontend and backend integration • Database-driven data storage • User-friendly interface • Complete end-to-end full-stack implementation
Technologies: Full-Stack Web Development, Java, Database Technologies
Hostel Management System
Developed a comprehensive Hostel Management System to simplify and digitize hostel-related administrative activities.
Key Features: Student hostel registration and management • Room/allocation management • Student information tracking • Hostel record management • Backend database integration • User-friendly frontend interface • Complete full-stack application workflow
Technologies: Full-Stack Web Development, Java, Database Technologies

HACKATHON EXPERIENCE & ACHIEVEMENTS

- Participated in 2 hackathon events, gaining practical experience in rapid application development, problem-solving, teamwork, and technical presentation. Secured 2nd Prize in a hackathon conducted at BIT, Erode. - Worked on developing innovative technology-based solutions under time constraints. - Strengthened skills in teamwork, ideation, implementation, and technical presentation.
--

CORE STRENGTHS

Full-Stack Development • Application Development • Java Programming • Problem Solving • Logical & Analytical Thinking • Quick Learning • Team Collaboration • Project Development • Innovation & Creativity • Technical Presentation
--

CAREER OBJECTIVE

To begin a challenging career in the software industry where I can apply my skills in Java, full-stack development, application development, and problem solving to build impactful software solutions while continuously improving my technical and professional expertise.

PERSONAL DETAILS

Name	Kasi Naveen K	Degree	B.E. Computer Science and Engineering
Year	3rd Year	CGPA	8.9 / 10.0

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge.
